Good afternoon,

This line was approved for 1.5 hours, but I think it may have been approved without realizing what will need to be done.

This is not just the stile. This is the face frame that is cracked. The entire front front will need to be disassembled and then rebuilt and installed. The cabinets, microwave, hood range, window valance and blinds will all need to be removed and reinstalled as well. An hour and a half is not enough time to do all of that. Can you please review again?

Thank you,

--
